

Warewashing

Superior Solutions

Our solid, powder and liquid warewashing systems and products improve efficiency and contribute to outstanding results. Our innovative range of dish and glass washing products ensure consistent performance in both hard and soft water areas. Drying time is reduced and water marks are eliminated allowing crockery, cutlery and glassware to look their best time after time.

Experienced Specialists

From office staff to logistics, sales people to engineers, we actively care about your business. We take great pride in providing a highly reactive, local service to all of our customers, large and small, and it is our constant endeavour to boost your warewashing productivity whilst reducing running costs.

Our local service managers will create a program that will optimise performance and customise wash programs specific to your requirements and cost restraints. Our scheduled "Preventative Maintenance Programs" and "Customer Service Reports" ensure our chemical management systems run efficiently and economically.

Our experienced sales and technical people are trained to support your staff in all aspects of the commercial warewashing operation. Your business will benefit from enhanced safety, increased labour productivity and minimum rewashes.
